

ENTRY sE-Bridge 5670

- secuENTRY Bridge enables remote opening of secuENTRY locking cylinders via BURGsmart App
 - an Internet connection is required: the bridge connects via WiFi (2.4 Ghz) and sends an encrypted Bluetooth signal to the secuENTRY locking cylinder
 - family, friends & tradesmen can gain access - even when you are away from home
 - allocation of locking authorisations to the minute, e.g. for holiday homes (in combination with the secuENTRY 5712 FP keypad)
 - upgrade set for secuENTRY access control systems
-
- a firmware update of the secuENTRY cylinder to the latest software version is required for the Bridge integration
 - remote programming via the BURGsmart App in combination with the secuENTRY software Light or Pro
 - low battery notification for the locking cylinder
 - notification on successful database update
 - easy installation and setup
 - suitable for indoor use
 - 5V-USB power supply unit with min. 1A required
 - can be used in combination with the smart video doorbell Door eGuard 8500

ExternalKey: 4003482562802

Basic data

Article no. sE-Bridge 5670

Material no. SAP 56280

Dimensions and weights

Product outer height 175,00 mm

Product outer width 68,00 mm

Product outer depth 30,00 mm

Product net weight 0,100 kg

Product features

Communication (Bluetooth/radio) Bluetooth 4.0
